

(a) The key's position has two effects

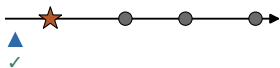

Bracketed key (middle)

without data: the 2nd smallest is the key

with data: a far miss on either side is nearer a distractor

Extreme key (at an end)

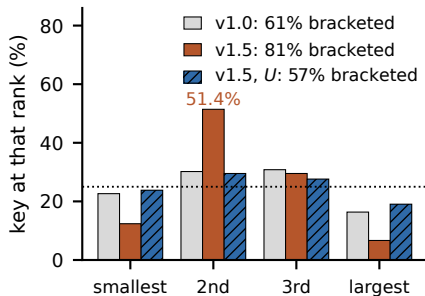

without data: no rank favoured (rank drawn uniformly)

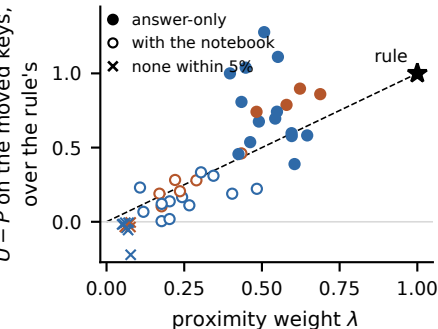

with data: any miss on the open side is nearest the key

★ key ● distractor ▲ agent's answer

(b) BixBench: the key's rank

(c) The cost a grader bears

(d) What hiding the rank accepts
